CK-Commercial

The CK-Commercial sprays/fogs a mist of electrostatically charged droplets using a patent pending Aerostatic™ charging process. This machine is designed to coat surfaces evenly over larger areas while placed in one location or on a cart while dispersing a water-based solution through a 25 ft. industrial-grade plastic hose. This machine can use a hose of up to 50 ft. to deliver the fluid and still be effective.

CK-Storm

The CK-Storm Electrostatic Sprayer delivers electrostatically charged droplets using a high-speed fan and a patent-pending Aerostatic™ charging process over massive areas. This machine is used to disperse a water-based solution coating surfaces evenly.
